HACCP

Food Safety

5 Day HACCP Auditor/Lead Auditor
Training Course

GLOBAL - HACCP Lead Auditor Training Course

Course Duration: 5 Days

Course Description and Purpose:

The purpose of this training course is to:

- provide delegates with the skills and knowledge necessary to plan organize and conduct an internal or external HACCP system audit and to report the results.
- help students with a food industry background and knowledge to assess the adequacy of the design, implementation and improvement of a food industry organization's food safety management system against HACCP, in accordance with ISO 19011.

Prerequisite:

- Have some working experience within the food/drink industry.
- Have some understanding of relevant key food safety legislation.
- Have some understanding of prerequisite programmes.
- Have some understanding of Good Manufacturing Practices (GMPs).
- Have some understanding of the principles of HACCP.

Learning Objectives:

- The purpose and benefits of a HACCP system.
- The implementation of operational risk control, monitoring and measurement.
- Undertake the role of an auditor in planning, conducting and reporting an audit of a HACCP system in accordance with ISO 19011.
- The purpose and contents of prerequisite programs.
- The CODEX HACCP Principles.

Who should attend?

- Food Technicians, microbiologists, scientists, engineers
- Food safety, management and quality management consultants
- Managers (quality, purchasing, marketing, etc)
- Anyone who may be involved in the implementation of a HACCP system

Examination (2 Hours):

Candidates who pass both the practical & written part of the course are considered to have satisfied the training requirements for the Global Certification Limited.
