Food & Safety Management Systems
2 Day Internal FSMS Auditor Training
Course

GLOBAL - Internal FSMS (ISO22000:2005) Auditor Training Course

Course Duration: 2 Days

Course Description and Purpose:

The aim of the Internal FSMS Auditor training course is to provide students who intend to perform internal audits with the knowledge and skills needed to assess and report on the conformance and effective implementation of processes, through internal audit, and to contribute to the continual improvement of the management system. For students from organizations intending to register their food safety management systems against ISO 22000:2005 or ISO 9001:2008 (with guidance standard ISO 15161:2002), this course meets the minimum training required by ISO 19011 for internal auditors.

Prerequisite:

It is recommended that students have some understanding of ISO 22000:2005.

Learning Objectives:

- Describe the responsibilities of an internal auditor and describe the role of internal audit in the maintenance and improvement of management systems.
- Describe, with reference to processes in the food chain and the model of a hazard analysis based Food Safety Management System, the purpose and structure of ISO 22000:2005.
- Plan, conduct and report an internal audit of part of a food safety management system in accordance with ISO 19011.

Who should attend:

- Food Technicians, microbiologists, scientists, engineers
- Food safety, management and quality management consultants
- Managers (quality, purchasing, marketing, etc)
- Anyone who may be involved in the implementation of a food safety management system

Examination:

Candidates who pass both the practical & written part of the course are considered to have satisfied the training requirements for the Global Certification Limited.
