ISO 14001

Environmental Management Systems
5 Day EMS Auditor/Lead Auditor
Training Course

Global EMS Auditor/Lead Auditor Training Course

Course Duration: 5 Days

Course Description and Purpose:

- The purpose of this training course is to provide delegates with the skills and knowledge necessary to plan organize and conduct an internal or external Environmental Management System (EMS) audit and to report the results.
- The aim of this course is to provide students with the knowledge and skills required to perform first, second and third party audits of management systems against ISO 9001, in accordance with ISO 19011.

Prerequisite:

- Students have a basic knowledge of the requirements of ISO 14001:2004 before they attending this course.

Learning Objectives:

- Describe the purpose of an EMS and explain the principles, processes and techniques used for the assessment and management of environmental aspects, including the significance of these for EMS auditors.
- Explain the purpose, content and interrelationship of ISO 14001, the ISO 14000 series guidance standards, and the legislative framework relevant to an EMS.
- Explain the role of an auditor to plan, conduct, report and follow up an audit in accordance with ISO 19011.
- Undertake the role of an auditor to plan, conduct, report and follow up an audit in accordance with ISO 19011 and by interpreting the requirements of ISO 14001.

Who should attend?

- Environmental management system consultants
- Auditors and engineers
- Anyone who may be involved in the implementation or auditing of a environmental management system
